C. : National Aeronautics and Space Administration ; Springfield, Va. : National Technical Information Service, distributor, 1990 OCLC Number: (OCoLC)62385584 Excerpt: . . . Experimentation and Design Improvement Several experiments are reported which were carried out to test the system accuracy. These experiments show CORS is a viable concept and also highlight some areas where component improvements can be made. The areas of improvement identified include: The calibration routines which cannot be modified within the current oculometer. On occasion, the calibration routines preclude obtaining good results. The helmet and method of mounting the cameras and visor on the helmet. There is considerable movement of the helmet on the head and of these devices on the helmet. These improvements can be made and several suggestions are provided in the conclusion section. Demonstration of the Concept A demonstration experiment was reported which showed modest accuracy of the system. Additionally, software was developed for the CORS computer to work in conjunction with the flight data acquisition unit emulator and the flightdata recorder to write and retrieve data. This effort was successful. xi This item ships from La Vergne,TN. Paperback.
