These are just a few examples of what are known as special ops -- unique fighting forces trained to beat overwhelming odds on every mission. Using principles like speed, purpose, repetition, surprise, and simplicity, elite units such as these have throughout history accomplished extremely challenging tasks against vastly superior forces. When something seemingly impossible must be achieved, special ops forces are the ones called upon for a miracle. You'll learn the fourteen core practices of special ops leadership, including how to: Create the Best If you think you can just call some of your regular employees together and give them a pep talk and an impossible task to do, you're wrong. Business commandos aren't born. They must be created. Your first task as a special ops business leader is to recruit, select, train, and motivate the right people. Build a Commando...
